Note (a): The budget for Fiscal Yr. 14-15 reflects line item transfers approved by the board, subsequent to approval of the budget. (See below)

Budget Line Items Transfers for FY 14/15Original Budget AmountTransfer TransferDate of Line Item

NOTE: As of May 12, 2015, there have been not been any budget line item transfers for FY 14-15.

OPERATING AND PROJECT EXPENSE BUDGET FISCAL YEAR ENDING JUNE 30, 2015

#### ANNOTATIONS AND PROJECT DESCRIPTIONS

#### **PROJECTS**

#### 1. Project Budget Line Items

Each of the following headings are included on each project budget and are defined as follows:

#### 1a. Legal/Mediation/Litigation

This item includes the professional services required to negotiate, develop agreements, and/or litigate. The budget costs reflect anticipated professional services by our general and/or specialized counsel.

#### 1b. Government Relations / Community Relations

<u>Government Relations:</u> These costs reflect the fees associated with efforts in Washington D.C. and Sacramento to find outside sources of funding for cleanup projects. The fees have been proportionately allocated to the related projects requiring outside funding. The allocation rate is based upon funding provided to activities in the operable units. The rate is reviewed on an annual basis and adjusted accordingly. The rates for FY 15/16 are shown below.

<u>Community Relations:</u> The WQA disseminates information to a large audience through the Los Angeles Newspaper Group throughout the year with the use of approximately eight to ten full-color inserts exclusive to the WQA. The "advertorials" are issued in conjunction with Earth Day, Civic Leadership, Water Awareness and other special sections or events. The WQA has also developed a comprehensive social media communications plan to capitalize on social media's increasing influence to communicate its goal to the general public. The fees are allocated equally among the 30 projects that are included in the budget.

	<u>Government</u>		
	<b>Relations</b>	Relations	
Baldwin Park Operable Unit - BPOU Committee	53.0%	20.0%	
Baldwin Park Operable Unit - Non-Committee	4.0%	10.0%	
El Monte Operable Unit	12.0%	20.0%	
So. El Monte Operable Unit	17.0%	26.7%	
Puente Valley Operable Unit	7.0%	10.0%	
Area Three Operable Unit	4.0%	3.3%	
Other Projects	<u>3.0%</u>	<u>10.0%</u>	
TOTAL	<u>100.0%</u>	100.0%	

OPERATING AND PROJECT EXPENSE BUDGET FISCAL YEAR ENDING JUNE 30. 2015

#### ANNOTATIONS AND PROJECT DESCRIPTIONS

#### 1. Project Budget Line Items (continued)

#### 1c. O&M/Administration Costs/Grants

Costs on this line item are associated with projects both owned and operated by WQA and not owned or operated by WQA, and reflect the costs to maintain and operate a treatment system or the costs associated with administering outside funding and grants.

#### 2. OTHER PROJECTS

#### CITY OF SOUTH PASADENA - GRAVES NO. 2 TREATMENT (See page 3)

This project is located in the city of San Marino at the existing Graves No. 2 well site. The project will include the construction of a 750 gpm treatment system consisting of two liquid granular activated carbon vessels for the treatment of VOCs followed by two similar sized ion-exchange vessels for the removal of perchlorate. The WQA Board has allocated Restoration funds to partially offset the cost of construction.

#### SAN GABRIEL VALLEY WATER COMPANY - PLANT 11 (See page 4)

The WQA Board authorized the use of Restoration funds to offset a portion of SGVWC's treatment and remediation costs for Plant 11. The federal funds for Plant 11 were utilized in FY 9/10. No federal funds have been allocated since that date. Plant 11 continues to operate with costs currently funded by Responsible Parties (RP).

#### WHITTIER NARROWS OPERABLE UNIT (WNOU) (See page 5)

The WQA is assisting the U.S. Environmental Protection Agency (EPA) and the Department of Toxic Substances Control (DTSC) in developing a long-term plan to guarantee the continued operations of the WNOU remedy and to ensure that the remedy is performing as required by the WNOU Record of Decision (ROD). The plan currently calls for the San Gabriel Valley Water Company (SGVWC) to assume operations of the treatment plant. In order for SGVWC to assume operations \$5.5M in capital upgrades are required. The upgrades include the construction of an onsite reservoir, updated pump station and disinfection equipment. In addition, a new treated water pipeline will bring needed blend water from SGVWC's Plant 8 to facilitate long term operation or the treatment facility. The costs associated with the capital upgrades are being funded by an agreement between EPA and DTSC. Any costs associated with WQA involvement are currently being funded by WQA.

OPERATING AND PROJECT EXPENSE BUDGET FISCAL YEAR ENDING JUNE 30, 2015

#### ANNOTATIONS AND PROJECT DESCRIPTIONS

#### 3. BALDWIN PARK AREA OPERABLE UNIT - LPVCWD (See page 9)

The 2,500 gpm groundwater treatment project was constructed in 2000 for the La Puente Valley County Water District (LPVCWD). The plant utilizes air stripping, ion exchange and ultraviolet light to treat VOCs, Perchlorate, n-nitrosodimethylamine (NDMA) and 1,4-Dioxane. The treatment and remediation costs for the project are funded through the Baldwin Park Operable Unit (BPOU) Project Agreement. In addition, LPVCWD tested waste brine destruction methods resulting from the operation of the ion exchange treatment technology. The BPOU project committee determined that LPVCWD should replace the existing regenerable ion exchange treatment equipment with more efficient single pass ion exchange treatment equipment thereby eliminating all waste brine discharges. In addition to the ion exchange treatment equipment, LPVCWD completed construction of a new onsite production well. The costs for the completion of the ion exchange treatment equipment and the new well were reflected in the FY09/10 budget and were funded through the BPOU Project Agreement, a USBR Title XVI award, and Restoration funds approved by the Board. The FY15/16 budget includes the subsequent treatment and remediation costs that are being funded through the BPOU Project Agreement.

#### 4. BALDWIN PARK AREA OPERABLE UNIT - PLANT B6 (See page 10)

The 7,800 gpm groundwater treatment project at San Gabriel Valley Water Company's (SGVWC) existing B6 well field has been constructed and is currently operating under its Department of Public Health (DPH) Policy 97-005 amended water supply permit. The project removes VOCs, Perchlorate, NDMA and 1,4-Dioxane from the groundwater with a combination of treatment technologies including air stripping, ion exchange, and ultraviolet light. The project also includes four extraction wells at two extraction locations near the southwestern edge of the BPOU, the construction of which was completed at the end of FY04/05. In FY 09/10 SGVWC began the process of replacing the existing regenerable ion exchange treatment equipment with the more efficient single pass ion exchange treatment equipment. The costs associated with the ion exchange treatment equipment were funded through the BPOU Project Agreement. The FY15/16 budget includes the subsequent treatment and remediation costs that are funded through the BPOU Project Agreement In addition, SGVWC is required by the DPH to construct an additional fixed bed ion exchange treatment system for the removal of nitrates. The second round of funding from Proposition 84, Section 75025 is providing funding for the nitrate system.

OPERATING AND PROJECT EXPENSE BUDGET FISCAL YEAR ENDING JUNE 30. 2015

#### ANNOTATIONS AND PROJECT DESCRIPTIONS

#### 5. BALDWIN PARK AREA OPERABLE UNIT - CDWC 14 Well (See page 11)

California Domestic Water Company (CDWC) has constructed VOC, Perchlorate and NDMA treatment facilities at their Well No. 14. While the project is not part of the EPA ROD, it is funded as part of the comprehensive BPOU Project Agreement that has been endorsed by the EPA. In FY09/10 CDWC began the construction of a new extraction well to replace existing Well No. 14 due to sub-surface failure. This project has since been completed. The FY 15/16 budget includes the cost of constructing a pipeline between CDWC and SGVWC's Plant B5, and treatment and remediation costs. These costs are funded through the BPOU Project Agreement.

#### 6. BALDWIN PARK AREA OPERABLE UNIT - PLANT B5 (See page 12)

The 7,800 gpm treatment system at SGVWC's existing B5 well field and new extraction well on site is located at the southern edge of the BPOU and is part of the EPA's ROD and the BPOU Project Agreement. Construction started during FY 04/05; the project treats Perchlorate, NDMA, 1,4-Dioxane and VOCs. The B5 treatment facility started operations in 08/09 with all associated costs funded through the BPOU Project Agreement. The FY 15/16 budget includes treatment and remediation costs that are being funded through the BPOU Project Agreement.

#### 7. BALDWIN PARK AREA OPERABLE UNIT - VCWD SUB-AREA 1 (See page 13)

The 7,800 gpm groundwater treatment system at Valley County Water District's (VCWD) Arrow/Lante well field has been constructed and has received its DPH 97-005 amended water supply permit. The project removes Perchlorate, NDMA, 1,4-Dioxane and VOCs utilizing treatment systems similar to those used in the B6 project. The project includes the construction of two new extraction wells (SA1-1 and SA1-2) and a treated water pipeline to Suburban Water Systems' (SWS) existing distribution system. VCWD has replaced the existing regenerable ion exchange treatment equipment with the more efficient single pass ion exchange treatment equipment. The FY 15/16 budget includes costs for the construction of the single pass ion exchange treatment equipment, the construction of a new groundwater extraction well and a liquid phase granular activated quench system and subsequent treatment and remediation costs funded through the BPOU Project Agreement. The second round of funding from Proposition 84, Section 75025 also provides funds for bypass piping to address nitrate contamination. The WQA Board has allocated Restoration funds to partially offset the cost of design and construction.

#### 8. BALDWIN PARK AREA OPERABLE UNIT - SWS Plants (See page 14)

SWS has completed the construction of two new production wells, one at their Plant 121 and the other at their Plant 142, to replace the production lost at their Plant 139. The project included a pipeline that connected Plant 121 with an adjacent service area that includes their Plant 140 NDMA treatment facility and the construction of a third production well Plant 151. The project was funded by the Project Agreement. The FY15/16 budget includes ongoing treatment and remediation costs that are being funded by the BPOU Project Agreement.

OPERATING AND PROJECT EXPENSE BUDGET FISCAL YEAR ENDING JUNE 30. 2015

#### ANNOTATIONS AND PROJECT DESCRIPTIONS

#### 9. BALDWIN PARK AREA OPERABLE UNIT - CDWC WELL 10 (See page 15)

California Domestic Water Company (CDWC) is constructing an Airstripper and Perchlorate Treatment facility at Well 10 with capacity to be 5,000 GPM. The project is consistent with EPA's remedy for the BPOU and is anticipated to be funded by the BPOU Project Agreement that has been endorsed by the EPA. The WQA Board has allocated Restoration funds to partially offset the cost of design and construction.

## 10. <u>BALDWIN PARK AREA OPERABLE UNIT - BALDWIN WELLS PUMPING PLANT (See page 16)</u>

This project is located at CIC's Baldwin Park Pumping Plant. CIC is constructing a 6,600 gpm treatment system utilizing fixed bed ion exchange treatment technology for the removal of perchlorate from onsite wells 1, 2 and 3. The project is not part of the EPA ROD, therefore it is not funded by the BPOU Project Agreement. The WQA Board has allocated Restoration funds to partially offset the cost of design and construction. The second round of funding from Proposition 84, Section 75025 also provides funds for the project.

#### 11. BALDWIN PARK AREA OPERABLE UNIT - NIXON WELLS TREATMENT (See page 17)

The project is at the VCWD Nixon water production facility. VCWD constructed an LPGAC treatment system for the removal of VOCs from wells Nixon West and Nixon East. The project is not part of the EPA ROD, therefore it is not funded by the BPOU Project Agreement. The WQA Board has allocated Restoration funds to partially offset the cost of construction, which were utilized in FY 11/12. No additional funding has been provided, therefore treatment and remediation costs are funded entirely by VCWD.

#### 12. EL MONTE AREA OPERABLE UNIT - Encinita (See page 19)

This VOC treatment project was completed during FY00/01 and enables the Golden State Water Company (GSWC) to treat all of the 2,250 gpm available at the Encinita Plant. Funding for the project came from a variety of sources including federal funding. The WQA Board has allocated Restoration funds to offset operation and maintenance costs, which have been utilized in full as of FY 11/12. The costs reflected in FY 15/16 are for treatment and remediation costs that are funded by PRPs.

OPERATING AND PROJECT EXPENSE BUDGET FISCAL YEAR ENDING JUNE 30. 2015

#### ANNOTATIONS AND PROJECT DESCRIPTIONS

#### 13. EL MONTE AREA OPERABLE UNIT - Westside Shallow Remedy (See page 20)

In FY06/07 the Westside Performing Settling Defendants (WSPSD) constructed additional monitoring wells required by EPA to fully characterize the extent of contamination in the western portion of the El Monte Operable Unit (EMOU). In FY07/08 the WSPSD began construction of VOC treatment facilities and conveyance pipelines. In the event that emergent chemical contamination is found appropriate treatment will be added. The work meets the west side shallow zone remediation requirements of EPA's EMOU ROD. Construction was completed in FY 12/13 and the project is now fully operational. However, recent data indicates the need to construct additional advanced oxidation treatment for destruction of 1,4-dioxane. The WQA Board has allocated Title XVI funds and Restoration Funds to offset the cost of construction.

#### 14. EL MONTE AREA OPERABLE UNIT - Eastside Shallow Remedy (See page 21)

During FY07/08, the Eastside Performing Settling Defendants (ESPSD) began construction of extraction wells, re-injection wells, conveyance pipelines and a VOC treatment facility. In the event that emergent chemical contamination is found, appropriate treatment will be added. The work will meet the east side shallow zone remediation requirements of EPA's EMOU ROD. The WQA Board has also allocated Title XVI funds and Restoration funds to offset the cost of construction. The FY15/16 budget includes capital costs associated with the project construction and staff time associated with project coordination and processing federal awards.

#### 15. EL MONTE AREA OPERABLE UNIT - Southeast Deep Remedy (See page 22)

The ESPSD and the City of El Monte (CEM) have entered into an agreement to construct three new extraction wells and necessary conveyance pipelines. The project also includes the construction of a centralized VOC treatment facility. The CEM will operate the treatment facility and use all of the treated water produced for domestic supply. This project will satisfy the east side deep zone remediation requirements of EPA's EMOU ROD. The WQA Board has allocated Restoration funds to offset the cost of construction. Work began in FY07/08. The FY15/16 budget includes capital costs associated with the project construction and staff time associated with project coordination and processing federal awards.

#### 16. EL MONTE AREA OPERABLE UNIT - Adams Ranch (See page 23)

Adams Ranch Mutual Water Company constructed a VOC treatment system at its well site. The WQA Board has allocated Restoration funds to offset the cost of treatment and remediation for a ten year period, with FY 13/14 being the final year of funding. No federal funds have been allocated for FY 15/16. No additional funding has been provided, therefore treatment and remediation costs are funded entirely by Adams Ranch Mutual Water Company.

OPERATING AND PROJECT EXPENSE BUDGET FISCAL YEAR ENDING JUNE 30. 2015

#### ANNOTATIONS AND PROJECT DESCRIPTIONS

#### 17. EL MONTE AREA OPERABLE UNIT - City of El Monte Wells 2, 10, 12 and 3 (See page 24)

The CEM has constructed VOC treatment systems at its well sites for Wells 2, 10 and 12. The WQA Board has allocated Restoration funds to partially offset the cost of treatment and remediation. A portion of the funds have been utilized in previous years, with the remainder of the funds projected to be utilized for FY 15/16. The second round of funding from Proposition 84, Section 75025 also provides funds for the construction of a treatment facility at Well 3 for the remediation of VOCs and to facilitate blending.

#### 18. SO. EL MONTE AREA OPERABLE UNIT - Monterey Park Wells (See pages 26-29)

The FY14/15 budget includes treatment and remediation costs associated with the City of Monterey Park's (CMP) Well 5, Well 12 and Well 15 VOC treatment facilities. Treatment and remediation costs associated with the VOC treatment for Well 5, Well 12 and Well 15 are provided by the EPA Cooperative Agreement and SEMOU settlement funds.

In FY 07/08 the CMP constructed Perchlorate blending treatment equipment at Well 5. The CMP plans to construct additional VOC treatment equipment at Well No. 5 and a pipeline connecting Well No. 6 to the treatment facility at Well No. 5 to restore production capacity. The WQA Board has allocated federal funds to offset the CMP's capital costs associated with the Well 5 VOC expansion. Costs are not included for FY 15/16 as construction is not expected to start during the next fiscal year.

CMP continues to operate a VOC treatment plant for Wells 1, 3, 10 and Fern. The treatment and remediation costs for FY 15/16 are funded by SEMOU settlement funds.

#### 19. SO. EL MONTE AREA OPERABLE UNIT - SGVWC Plant 8 (See page 30)

SGVWC started the design process for additional treatment consisting of ion exchange for perchlorate contamination and advanced oxidation of 1,4-dioxane destruction; the additional treatment will be necessary if concentrations exceed 50% of the maximum contaminate level. The WQA Board allocated the use of federal funds to offset the cost of SGVWC's design, a portion of which were utilized in FY 12/13. The WQA Board has also allocated federal funds to offset a portion of the construction costs. For FY 15/16, funding for the treatment and remediation costs for VOC treatment at Plant 8 are provided by the EPA Cooperative Agreement and SEMOU settlement funds.

#### 20. SO. EL MONTE AREA OPERABLE UNIT - GSWC SG 1 & 2 Wells (See page 31)

In FY03/04 GSWC retrofitted two of the existing six carbon vessels for ion exchange treatment of Perchlorate. GSWC currently operates a temporary Perchlorate treatment facility for well SG1 while exploring their options for a permanent Perchlorate treatment facility for both wells SG1 and SG2. The WQA Board has allocated federal funds to offset a portion of GSWC's treatment and remediation costs of the VOC and the temporary Perchlorate treatment systems. Treatment and remediation costs associated with the VOC treatment for Wells SG1 and SG2 are provided by the EPA Cooperative Agreement and SEMOU settlement funds.

OPERATING AND PROJECT EXPENSE BUDGET FISCAL YEAR ENDING JUNE 30. 2015

#### ANNOTATIONS AND PROJECT DESCRIPTIONS

#### 21. SO. EL MONTE AREA OPERABLE UNIT - SGVWC G4 (See page 32)

In FY05/06, SGVWC finished construction of a VOC treatment facility at their existing Plant G4. The WQA Board has allocated federal funds to offset a portion of the treatment and remediation costs associated with the VOC treatment, which have been completely utilized as of FY 10/11. For FY 15/16 the treatment and remediation costs are funded SEMOU settlement funds.

#### 22. SO. EL MONTE OPERABLE UNIT - Whitmore Street Treatment Facility (See page 33)

During FY 07/08, the WQA constructed a treatment facility utilizing UV oxidation and LPGAC treatment technologies for the removal of 1,4-Dioxane and VOCs. The WQA received a grant from the State of California to offset the costs of construction and a portion of treatment and remediation which provided funding through December 2012. In December 2012, the State approved an additional five years of funding for the construction of a new extraction well and to offset costs of treatment and remediation.

#### 23. PUENTE VALLEY AREA OPERABLE UNIT - SGVWC Plant B11 (See page 35)

The WQA Board authorized the use of federal funds to offset a portion of SGVWC's treatment and remediation costs for Plant B11. The federal funds for Plant B11 were fully utilized in FY 10/11. No federal funds have been allocated for FY 15/16. Plant B11 continues to operate with costs currently funded by Responsible Parties.

#### 24. PUENTE VALLEY AREA OPERABLE UNIT - Intermediate Zone Remedy (See page 36)

In FY06/07, the PVOU Responsible Party (Northrop Grumman), began construction on the intermediate zone remedy for the Puente Valley Operable Unit (PVOU). The project consists of extraction wells, conveyance pipelines, VOC treatment equipment, ion exchange treatment equipment and UV oxidation treatment equipment located on a property acquired by Northrop Grumman. The WQA Board has allocated Restoration funds to offset a portion of the construction costs.

#### 25. PUENTE VALLEY AREA OPERABLE UNIT - Rowland Water Reuse Project (See page 37)

The Board authorized the use of Restoration funds to offset a portion of the costs associated with the Alternative End Use Discharge Study conducted by the Puente Basin Water Agency. The Study was to determine the feasibility of utilizing the treated discharge water from the PVOU Intermediate Zone Remedy. The funds were fully utilized in FY 14/15.

OPERATING AND PROJECT EXPENSE BUDGET FISCAL YEAR ENDING JUNE 30. 2015

#### ANNOTATIONS AND PROJECT DESCRIPTIONS

#### 26. PUENTE VALLEY AREA OPERABLE UNIT - Shallow Zone Remedy (See page 38)

This project is being implemented by United Technologies Corporation to satisfy its responsibility for the PVOU shallow zone remedy. The project consists of extraction wells, raw water pipelines, centralized treatment facility, treated water pipeline and re-injection wells. The treatment facility will have a capacity of 1,560 gpm and will treat for VOCs and emergent chemicals. Costs are not included for FY 15/16 as construction is not expected to start during the next fiscal year.

#### 27. AREA THREE OPERABLE UNIT - City of Alhambra (See page 39)

In 1999, the City of Alhambra ("Alhambra") constructed Phase I of its pump and treat program. Phase I was put into operation in 2001 and consists of a 1,600 gpm air stripping plant at Well 7. In FY07/08, Alhambra began construction of Phase II of its pump and treat program. Phase II consists of a centralized treatment plant for the remediation of VOCs, including 1,2,3-TCP. Phase II was completed in FY08/09. The treatment plant utilizes LPGAC and was designed for a capacity of 5,400 gpm and accepts flow from City Wells Nos. 8, 11, and 12. The treated water is then blended with the treated water from Well No. 7 and conveyed to Alhambra's distribution system. The WQA Board allocated Restoration funds to this project to partially reimburse Alhambra for the Phase I and Phase II costs and to offset a portion of the treatment and remediation costs. As of FY 13/14, all federal funds had been fully utilized by Alhambra. No federal funds have been allocated for FY 15/16.

#### **OPERATING EXPENSE BUDGET (See pages 40 - 41)**

#### 31. Operating Expenses

#### 31a. Office Facilities

Office facilities includes the monthly lease expense and any related utility costs.

#### 31b. Equipment O&M-Computer Systems

This line item reflects costs associated with maintaining computers and related equipment, the network and its backup system, as well as an internet connection line. Most of the maintenance can be done in-house; however, the WQA does require the expertise of professional computer consultants on an as-needed basis. The cost of the professional computer consultant is included in the cost category of Outside Consultants: Computer.

#### 31c. General Discharge Permit Activities

The WQA has been working on acquiring a general discharge permit to facilitate the construction and operation of wells and treatment facilities in the San Gabriel Basin. The total project budget was \$415,000 and spanned the years of FY 11/12 through 13/14. Additional costs budgeted for FY 15/16 are related to WQA assisting water producers in obtaining general discharge permits.

OPERATING AND PROJECT EXPENSE BUDGET FISCAL YEAR ENDING JUNE 30, 2015

#### ANNOTATIONS AND PROJECT DESCRIPTIONS

#### 31. Operating Expenses (continued)

#### 31d. Public Information/Relations

Public information expenses include the cost of basin-wide informational workshops and the issuance of an annual report based on the 406 plan as well as all required public notices that are published in local and regional newspapers which are not attributable to projects. WQA co-hosts an annual informational workshop jointly with selected other water districts, as well as hosting several mini-workshops throughout the year.

#### 31e. Outside Services

For FY 15/16, outside services includes the cost of engaging a professional organization to scan documents for electronic storage.

#### 31f. Travel Expenses

Travel expenses include mileage reimbursements, airfare, car rental, hotel and out-of-town meals for authorized meetings, such as ACWA, EPA and meetings with legislators in Sacramento and Washington D.C. These expenses cover board members and staff.

#### 31g. Meetings (Attend & Host) & Conferences

This budget category includes conference registration fees (i.e., ACWA, NGWA) and costs to attend and/or host meetings related to WQA activities. These expenses cover board members and staff.

#### 31h. Administrative Salaries & Benefits

Employee equivalents are computed based upon the fraction of the fiscal year that each employee worked in the categories listed.

	FY	FY	FY	FY	FY
	2011/12	2012/13	2013/14	2014/15	2015/16
	Actual	Actual	Actual	Actual	Budget
Full-time	6	6	6	6	6
Part-time	<u>0</u>	<u>0</u>	<u>0</u>	<u>0</u>	<u>0</u>
Total	6	6	6	6	6

#### 31i. Salaries and Benefits Paid by Projects

The WQA currently utilizes an internal allocation procedure whereby salaries for technical positions (see Category 1 below) are allocated to projects based on individual record keeping and actual time spent on projects.

OPERATING AND PROJECT EXPENSE BUDGET FISCAL YEAR ENDING JUNE 30, 2015

#### ANNOTATIONS AND PROJECT DESCRIPTIONS

#### 31. Operating Expenses (continued)

#### 31i. Salaries and Benefits Paid by Projects (continued)

Salaries for administrative positions (see Category 2 below) are allocated proportionately to both projects and general administration. The allocation rates are reviewed annually and adjusted based on the projected activities in the operable units. For the fiscal years of FY 07/08 through FY 10/11, the allocation was based on the level of outside funding, consistent with the allocation method described in Annotation 1b. Starting in FY 11/12 the allocation method was revised to reflect the level of effort expended rather than level of funding.

The categories shown below reflect the FY 15/16 allocations:

### Category 1: Salaries Allocated by Individual Record Keeping Based on Actual Time to Projects

Applicable Positions: Executive Director, Assistant Executive Director, Project Resource Manager, and Executive Assistant/Public Outreach Coordinator.

## Category 2: Salaries Allocated by Proportionate Share to Projects and General Administration

<u>2015/2016</u> <u>Computation</u>: 50.0% ADMIN; 11.5% BPOU - Committee; 3.8% BPOU Noncommittee; 5.8% EMOU; 20.5% SEMOU; 5.8% PVOU; 1.3% ATOU and 1.3% Other Projects.

Applicable Positions: Director of Finance & Administrative/Accounting Assistant.

#### 32. Operating Revenues

#### 32a. Interest Income

This line item reflects investment interest earned from the Local Agency Investment Fund (LAIF) and interest income earned from bank accounts. For FY 14/15 interest income is based on historical interest earnings, projected interest rates, and the projected timing of cash receipts and disbursements. The projected interest income for FY 15/16 is estimated based on an average LAIF balance of \$10.0M and includes assumptions about the timing of cash receipts and disbursements. The majority of the funds held by WQA are to be used for reimbursement of costs through FFPA awards and other agreements.

OPERATING AND PROJECT EXPENSE BUDGET FISCAL YEAR ENDING JUNE 30, 2015

#### ANNOTATIONS AND PROJECT DESCRIPTIONS

#### 33. Pumping Right Assessments

The Pumping Right Assessment as established for the Fiscal Year 2015/2016 Budget is \$10.00 per acre-foot of prescriptive pumping rights.

Section 605 of WQA's enabling Act, as amended effective January 1, 2004, grants the WQA the authority to impose an annual pumping right assessment not to exceed \$10 per acre-foot. Additionally, Section 608 of the enabling Act grants WQA the authority to annually adjust the assessment rate by an amount not to exceed the percentage change in the LA/Riverside Consumer Price Index - All Urban Consumers (CPI). The increase in the CPI from 2004 to 2014 is 26.1 percent, resulting in an allowable maximum assessment of \$12.92.
