1720 W. Cameron Avenue, Suite 100, West Covina, CA 91790 • 626-338-5555 • Fax 626-338-5775

**WQA ADMINISTRATIVE/FINANCE COMMITTEE  
AND SPECIAL MEETING OF THE BOARD OF DIRECTORS  
TO BE HELD ON TUESDAY, APRIL 13, 2021 AT 10:00 A.M.  
AT  
1720 W. CAMERON AVE., SUITE 100 IN WEST COVINA, CA**

**To attend the meeting please register at:**

[https://zoom.us/webinar/register/WN\\_re1tdSU-TYWMnDiht6gliw](https://zoom.us/webinar/register/WN_re1tdSU-TYWMnDiht6gliw)

**A confirmation email will be sent to you with instructions to join the meeting**

*In light of the Governor's Executive Orders N-25-20 dated March 12, 2020 and N-29-20 dated March 17, 2020 (collectively, the "Executive Order") issued in response to the Covid-19 outbreak, the WQA Board Has Suspended Application of Certain Public Meeting Requirements otherwise required under Brown Act during the term of the Executive Order, Including Restrictions and Noticing Requirements Relating to the Conduct of Teleconferenced Board Meetings .Due to the essential nature of the WQA Board Meetings in conducting Authority business, the WQA Board meeting will take place via online and teleconference. Copies of Executive Order will be made available to members of the public upon request.*

*Public Comments can be emailed prior to the meeting to [Stephanie@wqa.com](mailto:Stephanie@wqa.com)*

---

*\*The Administrative/Finance Committee meeting is noticed as a joint committee meeting with the Board of Directors for the purpose of compliance with the Brown Act. Members of the Board that are not assigned to the Administrative/Finance Committee may attend and participate as members of the Board, whether or not a quorum of the Board is present. In order to preserve the function of the Committee as advisory to the Board, members of the Board who are not assigned to the Administrative/Finance Committee will not vote on matters before the Committee*

---

## **DRAFT AGENDA**

**Committee Members:** Mike Whitehead, Lynda Noriega and Mark Paulson

**Liaison Member:** Dave Michalko

- I. Call to Order
- II. Public Comment
- III. Budget Workshop for Fiscal Year 2021/2022 [enc]
- IV. Discussion Regarding Draft Administrative Procedure - Policy for Establishing a Fee for the Pursuit of, and the Obtaining and Securing of Funding [enc]
- V. Discussion Regarding Second Amendment to the 2017 Baldwin Park Operable Unit Agreement [enc]
- VI. Report on Cash and Investments for 1<sup>st</sup> Quarter 2021 [enc]
- VII. Executive Director's Report
- VIII. Adjournment

# San Gabriel Basin Water Quality Authority

1720 W. Cameron Avenue, Suite 100, West Covina, CA 91790 • 626-338-5555 • Fax 626-338-5775

**To:** WQA Administrative / Finance Committee  
**From:** Randy Schoellerman, Executive Director  
**Date:** April 13, 2021  
**Subject:** **Budget Workshop for FY 21/22 – Version v1**

---

## **Discussion**

The budget for FY 21/22 involves the participation of several interested parties – the WQA Board of Directors, the Water Producers, the Responsible Parties (RPs), the Prescriptive Pumping Rights Holders and the public.

The purpose of the budget is to project the costs for the upcoming fiscal year and determine the revenues necessary to cover those costs. WQA's budgeted costs are funded by assessments that the WQA charges on prescriptive pumping rights in the Main San Gabriel Basin. Funding also includes grants from the U.S. Bureau of Reclamation, the U.S. Environmental Protection Agency, the State Water Resources Control Board Division of Financial Assistance Proposition 1 and Proposition 68, and RPs (also known as PRPs or CRs).

There are a total of 197,610 acre feet of prescriptive pumping rights in the Basin. The WQA assessment is budgeted at \$12 per acre foot, for total assessment funding of \$2,371,320.

The Budget Workshop presentation will also include a discussion of the recently adopted WQA Reserve Fund Policy and the effect that the FY 21/22 Budget will have on the annual assessment level necessary to fund WQA's operations.

The WQA is holding its first Budget Workshop today. A second Budget Workshop will be held at the WQA Board Meeting on April 21, 2021. Any changes or comments received after the April 21, 2021 Budget Workshop will be reviewed at the May 11, 2021 Administrative/Finance Committee meeting, with any updates incorporated into the budget and presented to the Board at the regular WQA Board Meeting on May 19, 2021. Staff anticipates that the budget would be adopted on May 19, 2021.

## **Recommendations / Proposed Actions**

- Approve the Draft Budget v1, subject to any changes or comments received.

## **Attachments**

*FY 21/22 Budget and Assessment Schedule.*

OPERATING AND PROJECT EXPENSE BUDGET  
FISCAL YEAR ENDING JUNE 30, 2022

## ANNOTATIONS AND PROJECT DESCRIPTIONS

---

### PROJECTS

#### 1. Project Budget Line Items

Each of the following headings are included on each project budget and are defined as follows:

##### 1a. Legal/Mediation/Litigation

This item includes the professional services required to negotiate, develop agreements, and/or litigate. The budget costs reflect anticipated professional services by our general and/or specialized counsel.

##### 1b. Government Relations / Community Relations

Government Relations: These costs reflect the fees associated with efforts in Washington D.C. and Sacramento to find outside sources of funding for cleanup projects. The fees have been proportionately allocated to the related projects requiring outside funding. The allocation rate is based upon funding provided to activities in the operable units. The rate is reviewed on an annual basis and adjusted accordingly. The rates for FY 21/22 are shown below.

Community Relations: The WQA disseminates information to a large audience throughout the year with the use of approximately eight to ten full-color inserts exclusive to the WQA, as well as e-mail "blasts" to approximately 60,000 readers. These are issued in conjunction with Earth Day, Civic Leadership, Water Awareness and other special sections or events. The WQA has also developed a comprehensive social media communications plan that capitalizes on social media's increasing influence to communicate its goal to the general public. The fees are allocated proportionately among the 36 projects that are included in the budget.

	<u>Government</u>	<u>Community</u>
	<u>Relations</u>	<u>Relations</u>
Baldwin Park Operable Unit - BPOU Committee	38.0%	16.7%
Baldwin Park Operable Unit - Non-Committee	2.4%	11.1%
El Monte Operable Unit	12.8%	16.7%
So. El Monte Operable Unit	23.3%	27.8%
Puente Valley Operable Unit	4.7%	8.3%
Area Three Operable Unit	9.6%	5.5%
Other Projects	<u>9.2%</u>	<u>13.9%</u>
TOTAL	<u>100.0%</u>	<u>100.0%</u>

OPERATING AND PROJECT EXPENSE BUDGET  
FISCAL YEAR ENDING JUNE 30, 2022

## ANNOTATIONS AND PROJECT DESCRIPTIONS

---

### 1. Project Budget Line Items (continued)

#### 1c. Treatment and Remediation (T & R) / Administration Costs/Grants

Costs on this line item are associated with projects that are owned and operated by either the WQA, Responsible Parties (RPs), or Water Producers and reflect the expenses necessary to maintain and operate a treatment system or the costs associated with administering outside funding and grants.

### 2. OTHER PROJECTS

#### ARCADIA LONGDEN AND LIVE OAK TREATMENT PLANTS (See page 3)

The City of Arcadia operates two VOC treatment facilities. The Longden Treatment Plant utilizes air-stripping treatment technology with capacity of 4,500 gpm. The Live Oak Treatment Plant utilizes LPGAC treatment technology with a capacity of 3,000 gpm. The treated water is conveyed into Arcadia's existing distribution system. The budget for FY 21/22 includes SWRCB DFA Proposition 68 funds that have been awarded to cover treatment and remediation costs.

#### MONROVIA MYRTLE WELLFIELD TREATMENT (See page 4)

The City of Monrovia operates two VOC treatment facilities at its Myrtle Wellfield. Tower 1 and 2 Treatment Plant utilizes air-stripping treatment technology with a capacity of 3,600 gpm. Tower 3 and 4 Treatment Plant utilizes air-stripping treatment technology with a capacity of 4,000 gpm. The treated water is conveyed into Monrovia's existing distribution system. The budget for FY 21/22 includes SWRCB DFA Proposition 68 funds that have been awarded to cover treatment and remediation costs.

#### SAN GABRIEL VALLEY WATER COMPANY - PLANT 11 (See page 5)

The WQA Board authorized the use of Restoration funds in prior years to offset a portion of SGVWC's treatment and remediation costs for Plant 11. The federal funds for Plant 11 were utilized in FY 9/10; no federal funds have been allocated since that date. Plant 11 continues to operate with costs currently funded by SGVWC. The budget for FY 21/22 includes SWRCB DFA Proposition 68 funds that have been awarded to cover treatment and remediation costs.

# SAN GABRIEL BASIN WATER QUALITY AUTHORITY

OPERATING AND PROJECT EXPENSE BUDGET  
FISCAL YEAR ENDING JUNE 30, 2022

## ANNOTATIONS AND PROJECT DESCRIPTIONS

---

### **WHITTIER NARROWS OPERABLE UNIT (WNOU) (See page 6)**

The WQA is assisting the U.S. Environmental Protection Agency (EPA) and the Department of Toxic Substances Control (DTSC) in developing a long-term plan to guarantee the continued operations of the WNOU remedy and to ensure that the remedy is performing as required by the WNOU Record of Decision (ROD). The plan currently calls for the San Gabriel Valley Water Company (SGVWC) to assume operations of the treatment plant. In order for SGVWC to assume operations capital upgrades are required. The upgrades include the construction of an onsite reservoir, construction of blending controls and a 3,000 gpm booster station as well as an updated pump station and disinfection equipment. In addition, a 7,000 linear foot blending pipeline is necessary to bring needed blend water from SGVWC's Plant 11 to facilitate long term operation of the treatment facility. The costs associated with the capital upgrades total approximately \$15M and are being funded by an agreement between EPA, DTSC and state funding through Proposition 1, with a preliminary Proposition 1 award of up to \$7.1M. Any costs associated with WQA involvement are currently being funded by WQA.

### **3. BALDWIN PARK AREA OPERABLE UNIT - LPVCWD (See page 10)**

The 2,500 gpm groundwater treatment project was constructed in 2000 for the La Puente Valley County Water District (LPVCWD). The plant utilizes air stripping, ion exchange and ultraviolet light to treat VOCs, Perchlorate, n-nitrosodimethylamine (NDMA) and 1,4-Dioxane. The treatment and remediation costs for the project are funded through the Baldwin Park Operable Unit (BPOU) Project Agreement. In addition, LPVCWD tested waste brine destruction methods resulting from the operation of the ion exchange treatment technology. The regenerable ion exchange treatment equipment was subsequently replaced with more efficient single pass ion exchange treatment equipment thereby eliminating all waste brine discharges. In addition to the ion exchange treatment equipment, LPVCWD constructed a new onsite production well. The costs for the completion of the ion exchange treatment equipment and the new well were reflected in the FY09/10 budget and were funded through the BPOU Project Agreement, a USBR Title XVI award, and Restoration funds approved by the Board. The FY21/22 budget includes the subsequent treatment and remediation costs that are being funded through the BPOU Project Agreement.

# SAN GABRIEL BASIN WATER QUALITY AUTHORITY

## OPERATING AND PROJECT EXPENSE BUDGET FISCAL YEAR ENDING JUNE 30, 2022

### ANNOTATIONS AND PROJECT DESCRIPTIONS

---

4. **BALDWIN PARK AREA OPERABLE UNIT - PLANT B6 (See page 11)**

The 7,800 gpm groundwater treatment project at San Gabriel Valley Water Company's (SGVWC) existing B6 well field is currently operating under its amended water supply permit. The project removes VOCs, Perchlorate, NDMA and 1,4-Dioxane from the groundwater with a combination of treatment technologies including air stripping and single pass ion exchange treatment equipment. The project also includes four extraction wells at two extraction locations near the southwestern edge of the BPOU. In addition, SGVWC was required by the DPH to construct an additional fixed bed ion exchange treatment system for the removal of nitrates. The second round of funding from Proposition 84, Section 75025 provided funding for the nitrate system. SGVWC is also planning the installation of an advanced UVFlex modular treatment system for 1,4-dioxane and NDMA at an estimated cost of \$2.2M. This system would reduce the amount of energy necessary to operate and optimize the treatment of contaminants. Proposition 1 funding of a portion of the UVFlex project was approved. The FY21/22 budget includes treatment and remediation costs that are funded through the BPOU Project Agreement.

5. **BALDWIN PARK AREA OPERABLE UNIT - CDWC Well 14 (See page 12)**

California Domestic Water Company (CDWC) has constructed VOC, Perchlorate and NDMA treatment facilities at their Well No. 14. While the project is not part of the EPA ROD, it is funded as part of the comprehensive BPOU Project Agreement that has been endorsed by the EPA. In FY09/10 CDWC constructed an extraction well to replace existing Well No. 14 due to sub-surface failure. The cost of the constructing a pipeline between the CDWC Bassett Well Field and SGVWC's Plant B5 was also funded through the BPOU Project Agreement. The FY 21/22 budget includes treatment and remediation costs for Well No. 14, which are funded through the BPOU Project Agreement.

6. **BALDWIN PARK AREA OPERABLE UNIT - PLANT B5 (See page 13)**

The 7,800 gpm treatment system at SGVWC's existing B5 well field and extraction well on site is located at the southern edge of the BPOU and is part of the EPA's ROD and the BPOU Project Agreement. The project treats Perchlorate, NDMA, 1,4-Dioxane and VOCs. The B5 treatment facility started operations in FY 08/09 with all associated costs funded through the BPOU Project Agreement. The FY 21/22 budget includes treatment and remediation costs that are being funded through the BPOU Project Agreement.

# SAN GABRIEL BASIN WATER QUALITY AUTHORITY

OPERATING AND PROJECT EXPENSE BUDGET  
FISCAL YEAR ENDING JUNE 30, 2022

## ANNOTATIONS AND PROJECT DESCRIPTIONS

---

7. **BALDWIN PARK AREA OPERABLE UNIT - VCWD SUB-AREA 1 (See page 14)**

The 7,800 gpm groundwater treatment system at Valley County Water District's (VCWD) Arrow/Lante well field removes Perchlorate, NDMA, 1,4-Dioxane and VOCs utilizing treatment systems similar to those used in the B6 project. The project includes two extraction wells (SA1-1 and SA1-2) and a treated water pipeline to Suburban Water Systems' (SWS) existing distribution system. VCWD has replaced its existing regenerable ion exchange treatment equipment with the more efficient single pass ion exchange treatment equipment. The FY 20/21 budget included costs for the ongoing rehabilitation of a groundwater extraction well and a liquid phase granular activated quench system. The WQA Board allocated Restoration funds to partially offset the cost of design and construction of these systems. Additionally, the second round of funding from Proposition 84, Section 75025 provided funding for bypass piping to address nitrate contamination. The FY 21/22 budget also includes ongoing treatment and remediation costs that are being funded through the BPOU Project Agreement.

8. **BALDWIN PARK AREA OPERABLE UNIT - SWS Plants (See page 15)**

SWS has constructed two new production wells, one at its Plant 121 and the other at its Plant 142, to replace the production lost at its Plant 139. The project included a pipeline that connected Plant 121 with an adjacent service area that includes their Plant 140 NDMA treatment facility and the construction of a third production well Plant 151. The project was funded by the Project Agreement. The FY21/22 budget includes ongoing treatment and remediation costs that are being funded through the BPOU Project Agreement.

9. **BALDWIN PARK AREA OPERABLE UNIT - BALDWIN WELLS PUMPING PLANT (See page 16)**

This project is located at Covina Irrigating Company's (CIC) Baldwin Park Pumping Plant where CIC constructed a 6,600 gpm treatment system utilizing fixed bed ion exchange treatment technology for the removal of perchlorate from onsite wells 1, 2 and 3. The project is not part of the EPA ROD, therefore it was not funded through the BPOU Project Agreement. In prior years the WQA Board allocated Restoration funds to partially offset the cost of design and construction. The second round of funding from Proposition 84, Section 75025 also provided funds for the project.

10. **BALDWIN PARK AREA OPERABLE UNIT - VCWD Maine & Nixon Treatment (see page 17)**

Valley County Water District operates two VOC treatment facilities. Maine Treatment Facility utilizes LGAC treatment technology with a capacity of 3,450 gpm. Nixon Treatment Facility utilizes LGAC treatment technology with a capacity of 6,250 gpm. The treated water is conveyed into Monrovia's existing distribution system. The budget for FY 21/22 includes SWRCB DFA Proposition 68 funds that have been awarded to cover treatment and remediation costs.

# SAN GABRIEL BASIN WATER QUALITY AUTHORITY

## OPERATING AND PROJECT EXPENSE BUDGET FISCAL YEAR ENDING JUNE 30, 2022

### ANNOTATIONS AND PROJECT DESCRIPTIONS

---

**11. EL MONTE AREA OPERABLE UNIT - Encinita (See page 19)**

This VOC treatment project enables the Golden State Water Company (GSWC) to treat all of the 2,250 gpm available at the Encinita Plant. Funding for the project came from a variety of sources including federal funding. The WQA Board had allocated Restoration funds to offset treatment and remediation costs, which have been utilized in full as of FY 11/12. The costs reflected in FY 21/22 are for treatment and remediation costs that are funded by SWRCB DFA Proposition 68 funds that have been awarded to cover treatment and remediation costs.

**12. EL MONTE AREA OPERABLE UNIT - Westside Shallow Remedy (See page 20)**

In FY 06/07 the Westside Performing Settling Defendants (WSPSD) constructed additional monitoring wells required by EPA to fully characterize the extent of contamination in the western portion of the El Monte Operable Unit (EMOU). In FY 07/08 the WSPSD began construction of VOC treatment facilities and conveyance pipelines. In the event that emergent chemical contamination is found appropriate treatment will be added. The project work meets the west side shallow zone remediation requirements of EPA's EMOU ROD. The WQA Board allocated Title XVI funds and Restoration Funds to offset the cost of construction of the VOC facilities and pipelines and the funds have been fully utilized. Construction was completed in FY 12/13 and the project is now fully operational. Treatment and remediation costs are being funded by the WSPSD. However, recent data indicates the need to construct additional advanced oxidation treatment for destruction of 1,4-dioxane with the additional construction costs being funded by the WSPSD. WSPSD has continued the construction of additional shallow zone extraction wells due to the lowering groundwater table, with costs being funded by the WSPSD.

**13. EL MONTE AREA OPERABLE UNIT - Eastside Shallow Remedy (See page 21)**

During FY 07/08, the Eastside Performing Settling Defendants (ESPSD) began construction of extraction wells, re-injection wells, conveyance pipelines and a VOC treatment facility. In the event that emergent chemical contamination is found, appropriate treatment will be added. The work meets the east side shallow zone remediation requirements of EPA's EMOU ROD. The WQA Board also allocated Title XVI funds and Restoration funds to offset the cost of construction. The FY 15/16 budget included capital costs associated with the project construction and staff time associated with project coordination and processing federal awards. The Title XVI and Restoration funds have been fully utilized as of FY 15/16, and no further funding has been provided as of FY 21/22. The construction has been completed and the project is now operational. Treatment and remediation costs are being funded by the ESPSD.

### ANNOTATIONS AND PROJECT DESCRIPTIONS

---

**14. EL MONTE AREA OPERABLE UNIT - Southeast Deep Remedy- City of El Monte Wells 14, 15, & 16 (See page 22)**

The ESPSD and the City of El Monte (CEM) entered into an agreement to construct three new extraction wells and necessary conveyance pipelines. The project also included the construction of a centralized VOC treatment facility. The CEM operates the treatment facility and uses all of the treated water produced for domestic supply. This project satisfies the east side deep zone remediation requirements of EPA's EMOU ROD. The WQA Board allocated Restoration funds to offset the cost of construction, with construction starting in FY 07/08. The FY 15/16 budget included capital costs associated with the project construction and staff time associated with project coordination and processing federal awards. The construction has been completed and the project is now operational. Treatment and remediation costs were previously funded by the ESPSD. The costs reflected in FY 21/22 are for treatment and remediation costs that are funded by SWRCB DFA Proposition 68 funds that have been awarded to cover treatment and remediation costs.

**15. EL MONTE AREA OPERABLE UNIT - City of El Monte Wells 2, 10 and 12 (See page 23)**

The CEM has constructed VOC treatment systems at its well sites for Wells 2, 10 and 12. The WQA Board allocated Restoration funds to partially offset the cost of treatment and remediation, which had been fully utilized as of FY 15/16. No additional funding has been provided, therefore treatment and remediation costs are funded entirely by the CEM. The costs reflected in FY 21/22 are for treatment and remediation costs that are funded by SWRCB DFA Proposition 68 funds that have been awarded to cover treatment and remediation costs.

**16. SO. EL MONTE AREA OPERABLE UNIT - Monterey Park Wells (See pages 25-27 and 29)**

The FY21/22 budget includes treatment and remediation costs associated with the City of Monterey Park's (CMP) Well 5, Well 12 and Well 15 VOC treatment facilities. Funding for the treatment and remediation costs is provided by the EPA Cooperative Agreement, SEMOU settlement funds and SWRCB DFA Proposition 68 funds.

CMP also operates a VOC treatment plant for Wells 1, 3, 10 and Fern. The treatment and remediation costs for FY 21/22 are funded by SWRCB DFA Proposition 68 funds.

OPERATING AND PROJECT EXPENSE BUDGET  
FISCAL YEAR ENDING JUNE 30, 2022

## ANNOTATIONS AND PROJECT DESCRIPTIONS

---

**17. SO. EL MONTE AREA OPERABLE UNIT - Monterey Park Centralized Groundwater Treatment System (See page 28)**

The CMP has constructed a centralized groundwater treatment system (CGT) at its Delta Plant to replace the individual remedy wellhead systems. The CGT will remove VOCs, 1,4-dioxane and PFOS and will enable the City to maximize production from its three remedy wells. The \$8.2M project is partially funded by a Proposition 84 grant and is expected to be operational in FY 21/22. It will eventually replace the Well 12 VOC and Wells 12 & 15 Dual Barrier treatment facilities.

**18. SO. EL MONTE AREA OPERABLE UNIT - SGVWC Plant 8 (See page 30)**

SGVWC started the design process for additional treatment consisting of ion exchange for perchlorate contamination and advanced oxidation of 1,4-dioxane destruction; the additional treatment will be necessary if concentrations exceed 50% of the maximum contaminate level. The WQA Board allocated the use of federal funds to offset the cost of SGVWC's design. In FY 18/19 SGVWC began construction of an advanced oxidation treatment system for 1,4-dioxane contamination - the WQA Board has also allocated federal funds to offset a portion of those construction costs. These funds were awarded to SGVWC in FY 18/19. For FY 21/22, funding for the treatment and remediation costs for VOC treatment at Plant 8 are provided by the EPA Cooperative Agreement and SWRCB DFA Proposition 68 funds.

**19. SO. EL MONTE AREA OPERABLE UNIT - GSWC SG 1 & 2 Wells (See page 31)**

In prior years the Golden State Water Company (GSWC) retrofitted two of its existing six carbon vessels for ion exchange treatment of Perchlorate, and subsequently reversed the two vessels back into VOC treatment. The WQA Board had allocated federal funds to offset a portion of GSWC's treatment and remediation costs of the VOC and the temporary Perchlorate treatment systems - the funds were completely utilized as of FY 14/15. For FY 21/22 treatment and remediation costs associated with the VOC treatment for Wells SG1 and SG2 are provided by the EPA Cooperative Agreement and SWRCB DFA Proposition 68 funds.

**20. SO. EL MONTE AREA OPERABLE UNIT - SGVWC Plant G4 (See page 32)**

SGVWC constructed a VOC treatment facility at its existing Plant G4. The WQA Board allocated federal funds to offset a portion of the treatment and remediation costs associated with the VOC treatment, which were completely utilized as of FY 10/11. For FY 21/22 the treatment and remediation costs are funded by SWRCB DFA Proposition 68 funds.

# SAN GABRIEL BASIN WATER QUALITY AUTHORITY

## OPERATING AND PROJECT EXPENSE BUDGET FISCAL YEAR ENDING JUNE 30, 2022

### ANNOTATIONS AND PROJECT DESCRIPTIONS

---

**21. SO. EL MONTE OPERABLE UNIT - Whitmore Treatment Facility (See pages 33 & 34)**

During FY 07/08, the WQA constructed a treatment facility utilizing UV oxidation and LPGAC treatment technologies for the removal of 1,4-Dioxane and VOCs. The WQA received a grant from the State of California to offset the costs of construction and a portion of treatment and remediation which provided funding through December 2012. In December 2012, the State approved an additional five years of funding for the construction of a new extraction well and to offset costs of treatment and remediation. The State funding was fully expended within the first quarter of FY 18/19, at which time the cost of operating the treatment facility was being funded entirely by the WQA until the upcoming budget year. For FY 21/22 the budget includes SWRCB DFA Proposition 68 funds that have been awarded to cover treatment and remediation costs.

The WQA is investigating the contamination in the shallow aquifer surrounding the Whitmore site. Using hydropunch technology at 15 locations and installing 6 monitoring wells, the WQA will gain additional data to enhance the extraction at the Whitmore site. The cost of this project is partially funded by a Proposition 1 grant with the remainder of the funding being provided by the WQA. Costs for this project are included in the budget for FY 21/22.

**22. SO. EL MONTE OPERABLE UNIT - Regional Site Investigation (See page 35)**

The WQA is involved in a collaborative effort with the Los Angeles Regional Water Quality Control Board, the SWRCB Department of Financial Assistance, and the DTSC to facilitate the investigation and cleanup of contamination sources. The WQA has received a planning grant to be used to perform remedial Phase 1 and Phase 2-type investigations of soil, soil gas, and groundwater beneath high priority sites within the Basin. The cost of this project is partially funded by a Proposition 1 grant with the remainder of the funding being provided by the WQA. Costs for this project are included in the FY21/22 budget.

**23. SO. EL MONTE AREA OPERABLE UNIT - GSWC Garvey Plant (See page 36)**

Golden State Water Company operates a VOC treatment facility at its Garvey wellsite. Garvey treatment facility utilizes LGAC treatment technology with a capacity of 1,000 gpm. The treated water is conveyed into GSWC's distribution system. The budget for FY 21/22 includes SWRCB DFA Proposition 68 funds that have been awarded to cover treatment and remediation costs.

**24. PUENTE VALLEY AREA OPERABLE UNIT - SGVWC Plant B11 (See page 38)**

The WQA Board authorized the use of federal funds to offset a portion of SGVWC's treatment and remediation costs for Plant B11. The federal funds for Plant B11 were fully utilized in FY 10/11. No federal funds have been allocated in subsequent years. Plant B11 continues to operate with costs currently funded by RPs.

OPERATING AND PROJECT EXPENSE BUDGET  
FISCAL YEAR ENDING JUNE 30, 2022

## ANNOTATIONS AND PROJECT DESCRIPTIONS

---

**25. PUENTE VALLEY AREA OPERABLE UNIT - Intermediate Zone Remedy (See page 39)**

In FY 06/07, the PVOU Responsible Party (Northrop Grumman), began construction on the intermediate zone remedy for the Puente Valley Operable Unit (PVOU). Subsequently, the project was relocated and completely redesigned, with construction on the redesigned facility starting in FY 18/19. The project consists of extraction wells, conveyance pipelines, VOC treatment equipment, ion exchange treatment equipment, UV oxidation treatment equipment and reverse osmosis treatment equipment. It is located on a property acquired by Northrop Grumman. The WQA Board has allocated Restoration funds to offset a portion of the construction costs.

**26. PUENTE VALLEY AREA OPERABLE UNIT - Shallow Zone Remedy (See page 40)**

This project is being implemented by United Technologies Corporation to satisfy its responsibility for the PVOU shallow zone remedy. The project consists of extraction wells, raw water pipelines, centralized treatment facility, treated water pipeline and re-injection wells. The treatment facility will have a capacity of 1,560 gpm and will treat for VOCs and emergent chemicals. Costs are not included for FY 21/22 as construction is not expected to start during the next fiscal year.

**27. AREA THREE OPERABLE UNIT - City of Alhambra (See page 41)**

The City of Alhambra's ("Alhambra") Phase I of its pump and treat program consists of a 1,600 gpm air stripping plant at Well 7. Phase II consists of a centralized treatment plant for the remediation of VOCs, including 1,2,3-TCP. The treatment plant utilizes LPGAC, was designed for a capacity of 5,400 gpm and accepts flow from City Wells Nos. 8, 11, and 12. The treated water is then blended with the treated water from Well No. 7 and conveyed to Alhambra's distribution system. The WQA Board allocated Restoration funds to this project to partially reimburse Alhambra for the Phase I and Phase II costs and to offset a portion of the treatment and remediation costs. As of FY 13/14, all federal funds had been fully utilized by Alhambra. No federal funds have been allocated for FY 21/22. Costs for treatment and remediation have previously been funded by the City of Alhambra. The budget for FY 21/22 includes SWRCB DFA Proposition 68 funds that have been awarded to cover treatment and remediation costs.

**28. CITY OF SOUTH PASADENA - WILSON WELLS TREATMENT (See page 42)**

The project is located in the City of San Gabriel at the Wilson Reservoir and involves the construction of a 1,2,3-trichloropropane (TCP) treatment facility using granular activated treatment for the removal of TCP with a plant capacity of 3,000 gpm. The treated water will be conveyed into South Pasadena's existing distribution system. The WQA Board allocated Restoration funds to partially offset the cost of construction.

The budget for FY 21/22 includes SWRCB DFA Proposition 68 funds that have been awarded to cover treatment and remediation costs.

## ANNOTATIONS AND PROJECT DESCRIPTIONS

---

**NOTE:** Annotations 29 through 30 are not applicable for FY 21/22

### OPERATING EXPENSE BUDGET (See pages 43 - 44)

#### 31. Operating Expenses

##### 31a. Office Facilities

Office facilities includes the monthly lease expense and any related utility costs.

##### 31b. Equipment O&M-Computer Systems

This line item reflects costs associated with maintaining computers and related equipment, the network and its backup system, as well as an internet connection line. Certain maintenance is performed in-house. However, the WQA does require the expertise of professional computer consultants. The cost of the consultant is included in the cost category of Outside Consultants: Computer (see 31c. below).

##### 31c. Outside Consultants: Computer

The WQA has engaged an information systems consulting firm to provide for consistent and reliable computer support, with services including maintaining and monitoring servers, workstations and network security. The FY 21/22 budget includes costs related to the consulting firm.

##### 31d. Permit Activities

During FY 17/18, the WQA began participating in a working group to assist in the development of a guidance manual for the SWRCB Department of Drinking Water (DDW) Policy 97-005 process. The 97-005 guidance manual was completed during FY 20/21 and is now available on the DDW website. The project is continuing with the development of training materials for usage of the 97-005 guidance manual and policies regarding Chemicals of Emerging Concern.

##### 31e. Public Information/Relations

Public information costs include basin-wide informational workshops, the issuance of an annual report based on the 406 plan as well as all required public notices that are published in local and regional newspapers which are not attributable to projects. The WQA co-hosts an annual informational workshop jointly with selected other water districts, and hosts several mini-workshops throughout the year. The WQA is also participates in youth outreach programs.

# SAN GABRIEL BASIN WATER QUALITY AUTHORITY

OPERATING AND PROJECT EXPENSE BUDGET  
FISCAL YEAR ENDING JUNE 30, 2022

## ANNOTATIONS AND PROJECT DESCRIPTIONS

---

### **31f. General Outside Services**

The budget for FY 21/22 includes the cost of engaging a professional organization to scan additional documents for electronic storage - these documents were not included in the original project in which the bulk of the WQA's documents were scanned.

### **31g. Travel, Meetings and Conference Expenses**

The expenses in this category include mileage reimbursements, airfare, car rental, hotel and out-of-town meals for authorized meetings, such as ACWA, EPA, meetings with legislators in Sacramento and Washington D.C and meetings for contract negotiations, as well as conference registration fees (i.e., ACWA, NGWA) and costs to attend and/or host meetings related to WQA activities.

The total budget is allocated between WQA Board Members and WQA Employees.

#### Board Member Travel, Meeting & Conference

The FY 21/22 budget projects the maximum amount of WQA-paid expenses that each Board Member incurs at \$4,000 per Board Member.

#### Employee Travel, Meeting & Conference

This budget category includes staff costs and other costs to attend and/or host meetings related to the WQA activities.

### **31h. Salaries and Benefits**

The WQA currently has five full-time employees, and expects to hire an additional staff person bringing the total to six full-time employees. Employee equivalents are computed based upon the fraction of the fiscal year that each employee worked in the categories listed below and on the next page.

### **31i. Salaries and Benefits Paid by Projects**

The WQA currently utilizes an internal allocation procedure whereby salaries for technical positions (see Category 1 below) are allocated to projects based on individual record keeping and actual time spent on projects.

Salaries for administrative positions (see Category 2 below) are allocated proportionately to both projects and general administration. The allocation rates are reviewed annually and adjusted based on the projected activities in the operable units. The allocation method is based on level of effort expended for each operable unit.

The categories shown on the next page reflect the FY 21/22 allocations.

# SAN GABRIEL BASIN WATER QUALITY AUTHORITY

OPERATING AND PROJECT EXPENSE BUDGET  
FISCAL YEAR ENDING JUNE 30, 2022

## ANNOTATIONS AND PROJECT DESCRIPTIONS

---

### 31. Operating Expenses (continued)

#### 31i. Salaries and Benefits Paid by Projects (continued)

##### Category 1: Salaries Allocated by Individual Record Keeping Based on Actual Time to Projects

*Applicable Positions:* Executive Director, Assistant Executive Director, Project Resource Manager, and Executive Assistant/Public Outreach Coordinator.

##### Category 2: Salaries Allocated by Proportionate Share to Projects and General Administration

*2020/2021 Computation:* 50.0% ADMIN; 14.1% BPOU - Committee; 2.6% BPOU Non-committee; 5.8% EMOU; 19.3% SEMOU; 5.8% PVOU; 1.2% ATOU and 1.2% Other Projects.

*Applicable Positions:* Director of Finance & Administrative/Accounting Assistant.

### 32. Operating Revenues

#### 32a. Interest Income

This line item reflects investment interest earned from the Local Agency Investment Fund (LAIF) and interest income earned from bank accounts. For the current year projected interest income is based on historical interest earnings, projected interest rates, and the projected timing of cash receipts and disbursements. The budgeted interest income for FY 20/21 is estimated based on an average LAIF balance of \$5.0M and includes assumptions about the timing of cash receipts and disbursements. The majority of the funds held by WQA are to be used for reimbursement of costs through FFPA awards, payment of the matching costs for SWCRB grants and costs related to other agreements.

### 33. Pumping Right Assessments

The Pumping Right Assessment as established for the FY 21/22 Budget is \$12.00 per acre-foot of prescriptive pumping rights.

Section 605 of WQA's enabling Act, as amended effective January 1, 2004, grants the WQA the authority to impose an annual pumping right assessment not to exceed \$10 per acre-foot. Additionally, Section 608 of the enabling Act grants WQA the authority to annually adjust the assessment rate by an amount not to exceed the percentage change in the regional Consumer Price Index - All Urban Consumers (CPI). The increase in the CPI from 2004 to 2020 is 39.2 percent, resulting in an allowable maximum assessment of \$14.70.

## AGENDA SUBMITTAL

**To:** WQA Administrative/Finance Committee  
**From:** Randy Schoellerman, Executive Director  
**Date:** April 13, 2021  
**Subject:** **Draft Procedure – Policy Establishing a Fee for the Pursuit of, and the Obtaining and Securing of Funding**

---

### Summary

Staff is recommending that the committee consider establishing a policy that will provide for the collection of fees from producers that have received funding from WQA. The purpose of the fee is to reimburse WQA for costs incurred by WQA to pursue, obtain, and secure a variety of funding. A key component of this policy is that only producers that receive funding from WQA will be subject to the fee. That means other producers and/or prescriptive pumping rights holders that pay our assessment and receive no direct funding benefits will not pay the fee. This allows WQA to align its incremental costs related to the acquisition of funding with those producers that receive the direct funding benefit. Furthermore, establishing such a fee policy could enable WQA to stabilize the assessment for all producers and/or prescriptive pumping rights holders in the basin.

### Discussion

Historically, the WQA has collected reimbursements from various parties to recover some of its costs related to the funding. Establishing this fee policy provides for a continuation of those efforts for WQA to recover its costs. Additionally, this policy offers a more sustainable funding model for the WQA rather than relying solely on the prescriptive pumping rights assessment to fund certain costs.

The draft policy provides that once a year WQA would invoice a producer that had received funding from WQA in the prior calendar year for an amount not to exceed 5% of those funds. It is anticipated that staff would prepare invoices in January of each year after confirming the amount of funding each producer received from WQA the prior 12 calendar months. At that time, staff could make a recommendation to the Board about the appropriate percentage to use in calculating the fee amount that would not exceed 5%.

**Recommendation / Proposed Action**

Approve Draft Procedure - Policy Establishing a Fee for the Pursuit of, and the Obtaining and the Securing of Funding

*Attachment:*

*Draft Procedure - Policy Establishing a Fee for the Pursuit of, and the Obtaining and the Securing of Funding*

DRAFT - ADMINISTRATIVE PROCEDURE

No. XX

Date:

Revised:

Page 1 of 1

**Policy for Establishing a Fee for the Pursuit of, and the Obtaining and Securing of Funding**

**1. Purpose**

This policy of the San Gabriel Water Quality Authority (WQA) establishes a fee for service to support the WQA's efforts in pursuing, obtaining, and securing all varieties of funding on behalf of producers as the term "producer" is defined under Section 312 of Chapter 134 of the Water Code – Appendix. The WQA wishes to ensure that costs incurred by the WQA to secure such funds are offset by those who receive the most direct benefit (i.e., funding recipients). The fee established under this policy is *de minimis* and is voluntary to the extent that the obligation to pay the fee only arises in the event a producer voluntarily chooses to receive funding secured by the WQA.

**2. Amount of Fees**

The fee for WQA's costs in pursuing, obtaining, and securing funding on behalf of the producers shall be a sum not more than five percent (5%) of the total amount of funding received by each producer.

**3. Costs Incurred by WQA**

Producers who seek funding from the WQA acknowledge that WQA has incurred past costs and expenses in performing the service of pursuing, obtaining, and securing funding on behalf of the producers. Such costs and expenses commonly include, but are not limited to, professional advocacy services, engineering services and WQA operating costs.

**4. Payment of Fees**

A producer for whom WQA has pursued, obtained, and secured funding shall pay a fee no greater than an amount equal to five percent (5%) of funds received in the prior calendar year within thirty (30) days of WQA's annual billing statement.

## AGENDA SUBMITTAL

**To:** WQA Administrative/Finance Committee  
**From:** Randy Schoellerman, Executive Director  
**Date:** April 13, 2021  
**Subject:** **Second Amendment to the 2017 Baldwin Park Operable Unit Agreement**

---

### **Summary**

The 2017 Baldwin Park Operable Unit (BPOU) Agreement provides that the statute of limitations for each party's claims be tolled while the agreement is ongoing. However, state law is such that the tolling period must be extended every four years. Thus, the ten-year BPOU agreement essentially requires the parties to extend the tolling period every four years. The Second Amendment to the 2017 BPOU Agreement provides for the tolling extension.

### **Recommendation / Proposed Action**

Approve the Second Amendment to the 2017 BPOU Project Agreement.

Attachment:

*Second Amendment to the 2017 BPOU Project Agreement.*

## SECOND AMENDMENT TO THE 2017 BPOU PROJECT AGREEMENT

This second amendment (“**Second Amendment**”) to the 2017 BPOU Project Agreement (as amended by the First Amendment to the 2017 BPOU Project Agreement) (“**Project Agreement**”) is made by and among the parties to the Project Agreement (the “**Parties**”), which include the Main San Gabriel Basin Watermaster, the San Gabriel Basin Water Quality Authority, La Puente Valley County Water District, San Gabriel Valley Water Company, Suburban Water Systems, California Domestic Water Company and Valley County Water District, collectively the “**Water Entities**,” and Aerojet Rocketdyne, Inc., Azusa Land Reclamation, Inc., Hartwell Corporation, Chemical Waste Management, Inc., and Winco Enterprises Inc., collectively the “**Cooperating Respondents**.” Unless otherwise provided herein, capitalized terms have the meanings given in the Project Agreement.

WHEREAS, Sections 6.4.1 and 6.4.2 of the Project Agreement together provide for Statutes of Limitation to be tolled with respect to the Water Entities’ Tolled Claims and the Cooperating Respondents’ Tolled Claims, for a Tolling Period commencing on the Effective Date of the Project Agreement (*i.e.*, commencing on April 28, 2017) and continuing for a period of four years;

WHEREAS, Section 6.4.3 of the Project Agreement provides that “[i]n accordance with California Code of Civil Procedure Section 360.5, before the end of the Tolling Period, the Parties shall enter into an agreement that (1) incorporates all of the provisions of this Section 6.4 and (2) extends the Tolling Period for four years from the expiration of the then current Tolling Period (“Tolling Extension”).”

NOW THEREFORE, the Project Agreement is hereby amended as follows.

1. Extension Agreement as to Tolling Period. The Parties hereby (1) extend the Tolling Period from April 28, 2021 through April 27, 2025, and (2) incorporate into this Second Amendment all other provisions of Section 6.4 of the Project Agreement as though fully set forth herein.

Except as set forth in 1. above, all terms, conditions and provisions of the Project Agreement remain unchanged and in full force and effect.

Each of the Parties hereby respectively represents and warrants to the others that the execution and performance of this Amendment have been duly authorized by all necessary action of the board of directors or other governing body of such Party. This Amendment does not require approval by the Court pursuant to the Judgment.

IN WITNESS WHEREOF, this Second Amendment to the 2017 BPOU Project Agreement has been executed as of April 27, 2021.

**From:** Randy Schoellerman, Executive Director  
**Date:** April 13, 2021  
**Subject:** **Report on Cash and Investments – 1st Quarter 2021**

---

### **Discussion**

Attached for your review is the quarterly report on cash and investments as of March 31, 2021.

The average monthly effective yields for the Pooled Money Investment Account (PMIA) for January, February and March are 0.458%, 0.407%, and 0.357%, respectively. The Local Agency Investment Fund (LAIF) quarterly rate for January through March 2021 has not yet been issued. The PMIA Quarter to Date rate is .41%, as shown on the PMIA Daily Effective Yield schedule.

The WQA holds its cash funds at Bank of the West (BOTW). Funds held at BOTW exceed the FDIC insured limit of \$250,000. All funds in excess of the FDIC limits are collateralized by BOTW in accordance with California Government Code Title 5, Division 2, Part 1, Chapter 4, Article 2 – Deposit of Funds.
